REVIEW ARTICLES

Transcriptomics: illuminating the molecular landscape of vegetable crops: a review

P.P. Vishwanath · V. Bidaramali · S. Lata · R.K. Yadav 349

Alternative transcriptomes and plant resilience: technological innovations and biological insights

A.K. Pathak · R. Jeet · M. Moens · Y. Gupta · V. Sharma · K.K. Bhati 365

Transforming farming: mutational breeding as a sustainable solution for crop improvement in the 21st century

N. Kavuri · H. Alavilli · R. Manthari · B. Lee · S.K. Mangrauthia 382

ORIGINAL ARTICLES

Meta-QTL analysis enabled identification of candidate genes and haplotypes for enhancing biotic stress resistance in chickpea

I. Isha · S. Singh · U. Jha · C. Laxuman · H. Kudapa · R.K. Varshney · M. Thudi 390

Physiological and biochemical response of *AtEXPA1* transgenic tobacco plants to salinity stress

A. Nameni · A. Abbasi · M.S. Nodehi · S. Sobhanverdi 402

Application of osmoprotectant enhance tolerance to drought stress in rice and trigger changes in root microbial composition

Y.A. Purwestri · T.R. Nuringtyas · A.T. Wibowo · H. Nugrahapraja · Y.C.F. Salsinha · A. Sebastian · S. Nurbaiti · N. Kumalasari · R.R. Annisa · S.P. Manik Putri · S. Az-Zahra · L. Al Umami 413

Exogenous application of dsRNAs targeting multiple genes of cucumber mosaic virus in *Cucumis sativus* significantly reduces the viral titre

T.R. Usharani · M. Manamohan · M. Krishna Reddy · B.L. Patil 426

Host-delivered RNAi-mediated silencing of *HaAcl1*, encoding the major isoform of acetylcholinesterase, imparts resistance against the polyphagous insect-pest, *Helicoverpa armigera*

S. Jaiswal · K.V. Raman · R.P. Saini · J. Tilgam · M. Saakre · G. Dhandapani · R. Sreevathsa · D. Pattanayak 436

Accumulation of γ -sitosterol in response to drought stress and its interaction with plant stress signaling receptors in *Brassica juncea*

K. Khoba · R.S. Purty 448

Efficient *Agrobacterium* mediated plant regeneration using petiole explants and plant transformation of *GUS* and *Bar* gene in *Momordica charantia* L. plants

S.B. Kushwaha · S. Vanchinathan · S.S. Lele · G.R. Prashat · S. Goswami · R.R. Kumar · N. Bansal · A. Kumar · S. Praveen · N. Kunchge · J.S. Gokhale · T. Vinutha 463

Development of flow cytometry protocol and genome size estimation in *heeng* (*Ferula assa-foetida* L.)

J. Bishnoi · A. Rana · P. Kumar · R. Kumar · A. Gehlot · S. Singh · R. Chauhan · S. Singh · A. Kumar 480

Lemongrass (*Cymbopogon citratus*) peroxidase-modified screen-printed graphene electrodes for electrochemical sensing of hydrogen peroxide

E. Rodriguez · S. Correa · H. Cano · J.J. Castillo 490

Transgenic potato plants expressing non-phosphorylatable and phosphomimetic variants of *AteIF2 α* from *Arabidopsis thaliana* demonstrate increased tuber density and dehydration resistance

O.V. Karpova · A.M. Alexandrova · A.S. Nizkorodova · R.M. Nargilova · R.V. Kryldakov · B.K. Iskakov · A.V. Zhigailov 502
