VOLUME 29

NUMBER 2

FEBRUARY 2026

CONTENTS

- F. F. GHAZI AND L. N. M. TAWFIQ : Efficient design of neural network based on modified LM training algorithm for solving nonlinear 4th order 3D-PDEs 225–234
- H. ZYUDI : Measurability of relative multifractal measure and dimension functions 235–264
- Z. AHMADIEH, H. DARABI AND F. SAEEDI : Characterization of nilpotent Lie algebras by their multipliers, $t(L) = 13$ 265–277
- N. ALI, M. QOUSINI, M. I. QURESHI AND H. M. A. SIDDIQUI : Investigating topological spaces arising from commutative rings via associated zero divisor graphs : A holistic approach 279–312
- S. A. Bhanotar and M. E. Samei : A novel modification of the fractional conformable triple Sumudu transformation to investigate nonlinear fractional PDEs 313–328
- S. M. STEFANOV : On the fuzzy sets and fuzzy mathematical programming 329–336
- G. IOVANE AND M. CECCOBELLI : A new mathematical model driven by the Theory of Complexity applied to the relation between economic variables, money demand and blockchain crypto-coin application 337–361
- A. A. H. FAHD, A. J. MOHAMMED AND B. Y. HUSSEIN : An analytical innovation from foundations to modern applications of advancing measure theory via approach structure 363–370
- N. K. GODARA AND P. TIWARI : Power moments of the coefficients of an L-function over a polynomial in six variables 371–383
- H. I. LAFTA, R. G. IBRAHEEM, Z. A. JAAFAR AND S. KHALIL : Effective effects of temperature distribution and pressure gradient parameter in the curved peristaltic channel of non-Newtonian Walter's-B fluid 385–397
- S. O. AKINDEINDE AND S. D. YAKUBU : Hybrid block method with quasilinearization for the dynamical simulation of a methamphetamine abuse model 399–412
- H. K. ABOOD AND A. R. S. JUMA : On coefficient estimate of K-fold bi-univalent functions 413–421
- B. WAPHARE AND R. SHAIKH : Generalized fractional Hankel-Clifford convolution, translation, and norm equalities in Sobolev spaces : A Pseudo-differential operator approach 423–436
- M. D. JASIM, A. S. ABDULJABBAR AND N. M. DAHASH : Derivation of a new semi-implicit Runge-Kutta method of contra-harmonic mean with forward-backward technique 437–446
- E. HAMOUDA : A new approach to soft relations and topology 447–458
- A. M. HUSSEIN : On triple sequences spaces described by triple cubic maximal Foug functions 459–464
- G. M. ABD-ELHAMED : Application of a-b-FG-Khan contractions to an initial value problem in b-metric spaces 465–476
- B. ALRESHIDI, M. ALDAWOOD AND A. A. AZZAM : Innovative methods for generalized rough approximation spaces, inspired by grills and maximal neighborhoods 477–490
- M. H. MAHMOOD AND M. QOUSINI : Soft quantum logic and Łukasiewicz fuzzy topology 491–504
