Volume 9 Number 1 January-June 2017

Contents

A Reliable Node-disjoint Multipath Routing Protocol for Manet 1-6
A. Monisha and K.Vijayalakshmi

Development of Virtual Backbone Scheduling Technique for Faster Data Collection in Wireless Sensor Networks 7-11
P. Vignesh Raja, S. Subasree and N. K. Sakthivel

Coded Cooperation in Turbo-code using Log-Map and SOVA Decoder 13-17
S. Joy Vincy Praba and K. Vijayalakshmi

Reduction of Control Traffic in Hybrid Routing Protocol for MANETs 19-25
Dilli Ravilla and Chandra Shekar Reddy Putta

Design of Wireless Network Based on NS2 27-33
Sirwan A. Mohammed Sattar B. Sadkhan

Design and Development of Hybrid Adaptation Techniques in Mimo OFDM System for 4G Wireless Networks 35-42
Nagarjuna T. and Ganesh S.

Performance Evaluation of OSPF-based Data Network 43-47
Uzoh F. I., Okezie C. C., Azubogu A. C. O. and Onubogu J. O.

Security Framework of SDG Wireless Networks 49-54
G. V. Sankar Ram and G. Brindha

A Survey of Guaranteed Reliability Multi-hop Transport Layer Protocols in Wireless Sensor Networks 55-59
Akashdeep Singh Sarin and Trilok C. Aseri

Network Overview 61-67
BadrBaatiah and Christian Bach

Implementation of Data Security through Shift Cipher Algorithm 69-73
Nasser Ahmed Suleiman Hariesi, Mohammad Ahmed Mashrafi and Prakash Kuppuswamy

Constrained Resource Allocation for OFDMA-based Cognitive Radio Networks Considering Primary User Activity Statistics 75-87
Felix Brah and Iyad Dayoub
