Contents

- HDL Implementation of an Efficient Partial Parallel LDPC Decoder Using Soft Bit Flip Algorithm 1-6
Sandeep Kakde and Atish Khobragade
- Confidentiality Technique for Enhancing Data Security in Public Cloud Storage using 7-13
Data Obfuscation
D.I. George Amalarethinam and B. Fathima Mary
- A novel user profile mining framework for enhancing performance and preserving privacy 15-22
with a comparative study on non Hadoop and Hadoop approaches
T. Anand, S. Swamynathan and E. Kirubakaran
- A Proposed Prototype for Harnessing Open Corpus Resources for eLearning 23-29
Mahantesh K. Pattanshetti, Sanjay Jasola and Vivek Gupta, & Himanshu Joshi
- Design of Robust, Ultra Low-Power Efficient Full Adder Cell in sub-45nm Technologies 31-39
Gangadhar Reddy Ramireddy and Yash Pal Singh
- A REVIEW: Electronic Dual Fuel Injection System 41-50
Someet Singh, Ravi Shankar Mishra and Sunil Kr. Mahla
- A Novel Strategy of Differential Evolution Algorithm's Crossover Operator Based on 51-65
Graylevel Clusters Similarity for Automatic Multilevel Image Thresholding
Khoirul Umam, Agus Zainal Arifin and Dini Adni Navastara
- Ant Colony Optimization based Maximum Power Point Tracking (MPPT) for Partially 67-75
Shaded Standalone PV System
R. Sridhar, Pradeep Vishnuram D. Hima Bindu A. Divya
