# OPSEARCH

Journal of the Operational Research Society of India

For Circulation in India only

Official Publication  
of the Operational Research  
Society of India

Springer

# OPSEARCH

Volume 59 | Number 2 | Apr-Jun 2022

## Application Articles

- |   |     |
|---|-----|
| Investigating the barriers to growth in the Indian food processing sector<br><b>G. Singh, Y. Daultani and R. Sahu</b>                             | 441 |
| An intuitive fuzzy approach for evaluating financial resiliency of supply chain<br><b>I.G. Sahebi, S.P. Toufighi, G. Karakaya and S. Ghorbani</b> | 460 |

## Theoretical Articles

- |  |     |
|--|-----|
| Application of polygonal fuzzy numbers to the basic economic order quantity model<br><b>I. Özcan and S. Aydar</b>  | 482 |
| Estimation and testing procedures for the reliability characteristics of Kumaraswamy-G distributions based on the progressively first failure censored samples<br><b>A. Chaturvedi, R. Garg and S. Saini</b> | 494 |
| A comparison of logarithmic goal programming and conjoint analysis to generate priority point vectors: an experimental approach<br><b>S.R. Natesan and G. Dutta</b>  | 518 |
| Correspondence between a new class of generalized cone convexity and higher order duality<br><b>A. Kaur and M.K. Sharma</b>  | 550 |
| On some multiplicative version topological indices of block shift and hierarchical hypercube networks<br><b>P. Sarkar, N. De and A. Pal</b>  | 561 |
| Correction to: On some multiplicative version topological indices of block shift and hierarchical hypercube networks<br><b>P. Sarkar, N. De and A. Pal</b>   | 573 |
| Joint optimization of the marketing and operations functions<br><b>L. Tadj and S. Djemili</b>  | 574 |
| FGP approach to quadratically constrained multi-objective quadratic fractional programming with parametric functions<br><b>V. Goyal, N. Rani and D. Gupta</b>  | 594 |
| Single part reconfigurable flow line design using fuzzy best worst method<br><b>G. Kumar, K.K. Goyal, N.K. Batra and D. Rani</b>   | 603 |
| Robust discrete spanning tree problem: local search algorithms<br><b>P. Sharma, S. Singh, D. Ghosh and R. Chandrasekaran</b>   | 632 |
| A bargaining model for sharing water in a river with negative externality<br><b>S.S. Patel and P. Ramachandran</b>   | 645 |
| A sustainable production inventory model for profit maximization under optimum raw material input rate during production<br><b>N. Bhattacharjee and N. Sen</b>   | 667 |
| Dynamic analysis of R&D in an oligopoly under general demand and cost functions<br><b>M. Hattori and Y. Tanaka</b>   | 694 |
