67 From the President's Desk

V Gunasekhar Reddy

Editorial

69 From the Desk of the Editor-in-Chief

Raj Senani

Invited Article

71 Journey of Amarjit Singh from Phagwara to Pilani

B. N. Basu

Research Articles

79 A Simple and Instructive Experiment Illustrating the Statistical Concepts of Correlated Electrical Noise

T. Easwarakhanthan

86 Order Reduction of Large-Scale Linear Dynamic Systems Using Balanced Truncation with Modified Caue Continued Fraction

Bala Bhaskar Duddeti

98 Generalization of Collatz's Conjecture

T. S. Rathore

103 Study on Fractional Order Arterial Windkessel Model Using Optimization Method

V. L. Resmi and N. Selvagesan

112 Design and Evaluation of Multipliers Using Simulated Annealing and Partitioning Approach

Y.J. Pavitra, S. Jamuna and J. Manikandan

Tutorial Article

122 Proof of the Binomial Multisection Transformer Formula by the Method of Induction

S. C. Dutta Roy

Research Articles

125 Enhancing the Response of Two Second Order RC Networks

S. C. Dutta Roy

129 Two Less Known RC Networks Having Over Unity Gain

S. C. Dutta Roy

132 On an Active High-Pass Network with Equal Capacitors

S. C. Dutta Roy

Design Ideas

134 Broadening the Stop-Bandwidth of the Parallel-T RC Null Network

S. C. Dutta Roy

Research Article

137 Improving the Response of a Bridged-T RC Network

S. C. Dutta Roy and Y. V. Joshi
