Volume 40 No. 6 November–December 2023

CONTENTS

Editorial

- 725 Internships and Professor of Practice: Initiatives that can Potentially Transform Indian Higher Education
Mamidala Jagadesh Kumar

Research Articles

- 727 Reduced Order Based Active Disturbance Rejection Controller Design with Applications
Safiullah and Yogesh V. Hote
- 745 Performance Analysis of Dolph-Tschebyscheff Array for Different SLL and Array Length
Maloth Gopal, S. S. Patil and K. P. Ray
- 755 Cooperative Secrecy Techniques for Improving Physical Layer Security in NOMA-Based PLC Networks
Emad S. Hassan and Amir S. Elsafrawy
- 767 A Modified Ant Colony Optimization Algorithm with Pheromone Mutations for Dynamic Travelling Salesman Problem
Lavika Goel, Giriraj Vaishnav, Siddharth Chand Ramola and Tushar Purohit
- 783 Design and Modeling of Piezoelectric-AIN-based Acoustic Sensor for Sound Pressure Level Measurements
W. R. Ali, Aditi and M. Prasad
- 793 SSAD: Single-Shot Multi-Scale Attentive Detector for Autonomous Driving
Balaram Murthy Chintakindi and Mohammad Farukh Hashmi
- 806 Novel Double Tied Cross Link with Reduced Cross Cables for Maximum Power Extraction under Uniform and Non-Uniform Shading Conditions
A. Chandra Sekhar and Tejavathu Ramesh
- 822 An Improved Handoff Algorithm for Seamless Connectivity in Heterogeneous Networks
Zaheeruddin and Payal Mahajan
- 838 A Tristimulus Analysis-Based Approach for Tonic-Note Selection and Voice Range Determination for Music Singers
Chandrakant J. Gaikwad and Pradip Sircar
