## CONTENTS

Usefulness of X-ray diffraction and Raman Spectra for understanding metal alloy microstructure repeatability Nirmalya Karar	327
Growth, Characterization and Magneto-transport of single crystalline Bismuth Naveen Kumar, Navneet Kumar Karn, Pallavi Kushwaha & Veerpal Singh Awana	335
Design analysis of AISI 1080 and carbon fibre composite hybrid and conventional chassis Umesh Chavan, Priyanka Tagade, Aarya Chavan & Pravin Hujare	343
Assessment of up-flow and down-flow dual media filters for secondary treated wastewater Satyendra & Ritesh Vijay	351
Real-time mass estimation of connected commercial vehicle using artificial neural network model Chandrasekaran M & Rajesh PK	358
Synthesis and performance evaluation of magnetorheological fluid for continuous flow finishing process Vinod Chauhan, Mukul Katari, Ashwani Kumar & Radhey Sham	374
Enhancing concrete flexural behaviour with euphorbia tortilis cactus: Sustainable additive for improved load-carrying capacity and ductility R Mohanraj & R Krishnasamy	388
Optimization and property evaluation of 0.5 mm SS304 thick sheets welded by microplasma arc welding with and without post heat treatment Kasif Ansari & Mayuri Baruah	397
Enhancing frequency regulation in Nuclear-Renewable hybrid energy systems through optimally configured FOPID controllers and adaptive pelican optimization algorithm Sivaraj Subramanian Natarajan, Vijayakartheek Muthukumaran, & Sathishbabu Santhanam	405
Innovative fabrication methods for agricultural equipment: The case of a 3-D printed paddy drum seeder-cum-fertilizer applicator Narayanan Selvam Radhakrishnan, Shiv Pratap Singh, Hira Lal Kushwaha, Adarsh Kumar, Susheel Kumar Sarkar & Kapila Shekhawat	416
Adsorption of Pb(II) on modified groundnut shell (MGNS): Isotherm, kinetic, and thermodynamic study Sheel Ratan, Abhishek Srivastava, Chinky Gangwar, Rashmi Nayak, Vartika Pandey & Radhey Mohan Naik	425
Permeation of Iron slag and recycled aggregates concrete with microstructural characteristics Gurpreet Singh & Navdeep Singh	434
A simplified approach to detect and diagnose the faults in pv array electricity generation system Abhishek Kumar Gupta, Rajveer Singh & Sanjiv Kumar	450
