|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Numerical analysis of thermal behaviour in MHD hybrid nanofluid flow over a radially convective stretching surface<br>M. Ragavi, P. Sreenivasulu & T. Poornima*                                                                                              | 829 |
| Comparative study of machine learning models for removal of As(III) from potable water using spiral-wound nanofiltration and analyzing input responses<br>Deepak Koundal, Mohit Sehgal & Shailendra Bajpai*                                                  | 840 |
| Onsite arsenic detection with a low cost portable microvolume kit<br>Ravula Rajasekhar*, Tapas K. Mandal, Gaurav Daware & Yennam Rajesh                                                                                                                      | 851 |
| Radiation absorption properties of some metals used as biomaterials<br>Aycan ŞENGÜL*, Kadir AKGÜNGÖR, Kadir GÜNOĞLU & Iskender AKKURT                                                                                                                        | 860 |
| Investigation on activation energy of ground spinner pyrotechnic mixture by altering grades of aluminium ( $Al_{xxx}$ ) and proportions of dextrin( $C_6H_{10}O_5$ ) <sub>n</sub><br>Lionel Beneston Selvasekar*, Asok Suyambu Pandian & Rathinam Maheswaran | 868 |
| Bio-oil production: A comparative analysis of catalytic pyrolysis with cobalt catalyst versus direct pyrolysis of Azolla and Ulva biomasses<br>S. Pourkarimi*, M. Saberdelasadeh, H. Nouri & A. Hallajisani                                                  | 879 |
| Determination of kinetic parameters and thermal decomposition of Epoxy - Moringa gum bio composite using thermogravimetric analysis<br>R. Nalini Suja*, B. Sridevi & M. Chitra                                                                               | 889 |
| Simulation of natural convection in a square cavity with micropolar fluid and magnetic fields using FVM<br>N. Vinodhini* & V. Ramachandra Prasad*                                                                                                            | 902 |
| Detection of cadmium in water through laboratory designed enzyme inhibition-based bio-electrochemical system<br>Priya Saini*, Indu Chopra*, Rajesh Kumar & Suman Gupta                                                                                       | 914 |
| Performance evaluation of chitosan-zinc oxide nanocomposite thin films in refinery wastewater treatment<br>M. Geetha Devi*, G. Chandra Sekhar & Patrick Isibor                                                                                               | 921 |

Analysis on the effect of plasma and pyrolytic degradation in textile sludge

Rajendran M.\*, Sivagami S. M. & Aswin Sriram\*

929

Modified soak pit system for septic tank effluent treatment in a laboratory scale

Anand Lali Neera\*, S. Ayoob & Lea Mathew

941
