International Journal of ELECTRICAL AND COMPUTER ENGINEERING

Volume 7 • Number 2 • July-December 2017

CONTENTS

- Mathematical Model for the Oscillatory Flow of Blood Through an 85-91
Artery with Mild Stenosis
• *Satendra Singh, D. S. Sharma and Sanjeev Kumar*
- Goodness-of-Fit Tests for Misspecified Link Functions in Logistic 93-104
Regression Model
• *B. Munsiwamy, Shibru Temesgen Wakweya and G. Ramesh*
- Flow of an Electrically Conducting Micropolar Fluid Flow on a 105-113
Moving Belt
• *K. R. Singh, Preeti and Ajit Kumar*
- The Relationship Between Partition Function and Divisor Function 115-125
• *Padma Nath Phukan*
- Almost Unbiased Estimator of Finite Population Mean in Survey 127-136
Sampling
• *H. S. Jhaggi, Davinder Kumar Garg and Ghansham Mishra*
- Application of Differential Transformation Method for 137-150
Reaction-Diffusion Problems
• *Abdollah Borhanifar and Reza Abazari*
- New Methods to Resolve Two Type HIV Model 151-159
• *Meraihi Mouna and Rahmani Foued Lazher*
- Thermomechanical Fatigue Analysis of Stainless Steel Exhaust 161-165
Manifolds
• *J. David Rathnaraj*
