INNOVATIONS FOR SUSTAINABLE ENERGY TRANSITION

Dr Ranjeet Mehta

India is home to 18% of the world's population, but consumes only 6% of the world's primary energy. This, however, is rapidly changing and the energy landscape in India is evolving like never before. Energy, today, is considered crucial to achieve India's development ambitions, to support an expanding economy, to bring electricity to rural areas, to fuel the demand for greater mobility and to develop the infrastructure needed to meet the demands of what is soon expected to be the world's most populous country.

The paradigm shift in the Indian energy sector will increasingly influence and shape the global energy economy. We plan to reduce the emission intensity of its GDP by 33 - 35% by 2030 from the 2005 level. The Ministry of New and Renewable Energy (MNRE) has taken several steps to fructify the dream of a clean energy future for the 'New India'. The largest renewable capacity expansion programme in the world is being taken up by India. The government is aiming to increase share of clean energy through massive thrust in renewables. Core drivers for development and deployment of new and renewable energy in India have been Energy Security, Electricity Shortages, Energy Access, Climate Change etc. The Government of India has set a target of 175 GW renewable power installed capacity by the end of 2022. This includes 60 GW from wind power, 100 GW from

solar power, 10 GW from biomass power and 5 GW from small hydro power.

The who's who of the global clean energy landscape

recently concluded the three day 3rd Global RE-Invest 2020. With India's solar power tariff hitting a new low of Rs. 2 per unit, the rapidly expanding green economy has become its calling card on climate change. The 3rd Global RE-Invest Renewable Energy Investors Meet & Expo, themed 'Innovations for Sustainable Energy Transition' aimed to accelerate the worldwide effort to scale up development and deployment of renewable energy and connect the global investment community with Indian energy stakeholders, was organised by the Ministry of New and Renewable Energy (MNRE), Government of India, from 26 - 28 November 2020 on a Virtual Platform.

RE-Invest 2020 was attended by over around 75 international ministerial delegations, over 1000 global industry leaders, and 50,000 delegates. It included renewables and future energy choices, and an exhibition of manufacturers, developers, manufacturers, investors, and innovators. The partner countries for the RE-Invest 2020 were Australia, Denmark, France, Germany, Maldives, the United Kingdom along with European Union and US agencies. The partner states from India were Gujarat, Himachal Pradesh, Madhya Pradesh, Rajasthan and Tamil Nadu.

India has set an ambitious target of having 175 GW of renewable energy by 2022 and 450 GW by 2030. During

IAS MAINS-2020 : STRATEGY FOR ETHICS PAPER

S B Singh

With less than a month remaining for IAS mains-2020, it is imperative that the aspirants maximize their performance by devising a sound strategy taking into account factors that determine success in clearing this stage and qualify for the personal interview. Qualifying in prelims itself is a challenge and therefore, for those who have made it to mains this year, it is an opportunity that must be utilised to the fullest. This calls for approaching the main exam with right strategy. The mains syllabus is huge. In all, there are four General Studies papers. In each of these papers, more than two subjects have been combined. GS paper one consists of history, art and culture, geography and social issues. These four GS papers present a formidable challenge in terms of mastering each area in a short span of time. This year, UPSC declared prelims results early and has thus given more preparation time to

candidates. However, the need for a well thought out strategy remains valid.

Though a balanced preparation of all four GS papers is an absolute requirement, at the same time, one must apply one's mind on how to get high marks from some substantial portions of the mains syllabus. A good strategy is to secure good marks by giving more attention to the optional paper, ethics and essay papers. Given the fact that the optional paper has a well defined syllabus and requires preparation from standard text books on the

subject, the more the input in your optional paper, the more the output (i.e. marks). Without commanding your optional paper, you can not expect to qualify the main exam. Then, among the compulsory papers, ethics and essay papers offer great opportunities to score high marks. This is so because of following reasons:

1. Unlike other papers, these two papers do not require multiple disciplines to cover.
2. These two papers can give you a very big lead over other competitors because most

candidates score below average marks in these two papers due to lack of requisite insights and skills.

ETHICS PAPER

Understanding its nature:

1. The syllabus of Ethics is indicative in nature. It means that the chapters mentioned in the syllabus only indicate the broad topics. For details, one has to make one's own subtopics within those topics on which questions will be framed. For example, the very first chapter of the syllabus talks about ethics and its human interface. This description of the syllabus is only indicative. It should be understood in a detailed manner in this way: origins of ethics, types of ethics, how it has a bearing on our personal, social and professional life. Also, how ethics or lack of it impacts human life, more so, in the contemporary era. With this ability to decipher the indicative syllabus of ethics, you will understand better its scope in the examination.

INNOVATIONS FOR SUSTAINABLE ENERGY TRANSITION

Continued from page 1

the last six years, over Rs 4.7 lakh crore were invested, making the country a preferred destination for investment in clean energy. It is extremely important to note that the RE-Invest also sent signals to the global renewable community about India's commitment to the development and scaling up of renewable energy to meet its energy requirements in a sustainable manner.

During the inaugural session, Prime Minister Shri Narendra Modi expressed happiness at the progress of renewable energy sector, especially the mindset change from MW to GW in spirit and reality on the ground. He pointed out that India's generation capacity and network is being expanded to ensure every citizen of India has access to electricity. He mentioned that India's renewable power capacity is the 4th largest in the world and is growing at the fastest speed among all major countries. The renewable energy capacity in India is currently 136 Giga Watts, which is about 36% of total country capacity. He also highlighted that in the last 6 years, India has increased installed renewable energy capacity by two and half times, emphasizing that investing in RE when it wasn't cheap has made it possible to reduce the prices further.

The Prime Minister also said that after the success of Performance Linked Incentives (PLI) in electronics manufacturing, Government has decided to give similar incentives to high efficiency solar modules. He stressed that ensuring "Ease of doing business" is the utmost priority and dedicated Project Development Cells have been established to facilitate investors. He announced that there are huge renewable energy deployment plans for the next decade and are likely to generate business prospects of the order of around \$ 20 billion per year. He invited investors, developers and businesses to join India's renewable energy journey.

The inaugural session was coordinated by Mr R K Singh, Union Minister for Renewable Energy and Power who informed that while COVID-19 has caused significant disruption, the renewable energy sector has rebounded remarkably. The pace of bidding for RE projects since the lockdown is even faster than in the corresponding period last year. The inaugural session

was also attended by Prime Minister of Israel H.E. Mr. Benjamin Netanyahu; Minister of Climate and Energy, Public Utilities, of Denmark, Mr. Dan Jørgensen; Secretary of State and Energy of UK Mr. Alok Sharma. A special video message from PM of the Netherlands H.E. Mr. Mark Rutte, was also streamed.

In his address, the Renewable Energy Minister, Mr. R K Singh said that India has very liberal foreign investment policy for renewables, allowing foreign investors, either on their own or in joint ventures with Indian partners, to set up renewable energy based power generation in India. He further said that the efforts are being made by the government for creating an enabling ecosystem for domestic manufacturing of solar PV cells

and modules. Government schemes alone have created a domestic demand and assured market of around 40 GW of domestically manufactured solar PV cells and modules.

There is a significant role of renewables in farm sector and Mr. R K Singh said that PM-KUSUM scheme aims to replace 20 lakh diesel pumps with standalone solar pumps, solarize 15 lakh grid connected pumps, and 10 GW decentralized solar power plants in uncultivable lands of farmers within next four years. In addition, initiative to include solarisation of agricultural feeders under the scheme has already been taken which would significantly reduce the subsidy burden of states.

India's Intended Nationally Determined Contributions (INDCs) states that 40 per cent energy production would be from non-fossil fuel sources. India currently has 38.1 per cent installed capacity from non-fossil fuel sources. Mr. R K Singh informed that by 2030, India plans to achieve 64 per cent power generation capacity from renewable sources, which would be 24 per cent higher than the country's commitment under Paris Agreement. India is the only G20 country to take actions set to keep the increase in temperature below 2 degrees Celsius. New technologies like Green Hydrogen and Green Urea would help in electrifying

other major sectors of the country.

Mr. Benjamin Netanyahu, Prime Minister of Israel, said that future of the world is clean energy and at present, 10 per cent of energy consumed by Israel comes from solar source and the target is to increase it to 25 per cent by 2030. He also said that the major issue is storage and about 400 start-up companies are working in this space with billions of dollars of investment. These startups are expected to bring solutions that will benefit people across the world.

During the special address, the Climate Minister of Denmark Mr. Dan Jørgensen emphasized on moving towards Green transition for combating climate change issues, RE is also a key to reach the proposed ideas in

Paris Agreement. He also emphasized on Denmark-India partnership in green energy which will help not only in dealing with climate change issues but also help in generating jobs and so in increasing the economy.

Mr. Alok Sharma, President, COP26 and Secretary, Department of Business, Energy & Industrial Strategy, U.K. said, there is a need to de-carbonise the economy five times faster than we have done in the past. He said that India is a key partner as the country has led the way for a renewable energy revolution through the conception of ISA (International Solar Alliance), increasing its renewable energy capacity by 13 times in the last five years, achieving the lowest tariffs, leading the largest energy access plan and much more to come.

A session on 'One Sun, One World, One Grid'-that seeks to transfer solar power generated in one region to feed the electricity demands of others - was also held during the RE-Invest.

The RE-Invest this year also assumes importance as the US President Elect Joe Biden has promised a 'Clean Energy Revolution'. In what is being seen as a precursor of things to come from the new US Administration, Mr. Biden nominated former Secretary of

UNITED NATIONS DECLARES INVEST INDIA THE WINNER OF THE INVESTMENT PROMOTION AWARD 2020

The United Nations (UNCTAD) has declared Invest India- the National Investment Promotion Agency of India- as a winner of the 2020 United Nations Investment Promotion Award. The award ceremony took place on 7th December 2020 at UNCTAD Headquarters in Geneva.

The award recognizes and celebrates the outstanding achievements and best practices of Investment Promotion Agencies (IPAs) across the globe. The evaluation was based on UNCTAD's assessment of work undertaken by 180 Investment Promotion Agencies.

The COVID-19 pandemic has led to numerous challenges for Investment Promotion Agencies forcing them to shift focus from routine investment promotion and facilitation towards crisis management, notification of government emergency and economic relief measures, provision of crisis support services, and contribution to national COVID-19 business response efforts. All this was being done while agencies had closed offices, moved functions online and asked staff to work from home. In March 2020, UNCTAD constituted a team to monitor the response of IPAs to the pandemic. UNCTAD reported best practices from Investment Promotion Agencies in the IPA Observer publications in April and July 2020. The response of IPAs to the pandemic became the basis for the evaluation of the 2020 United Nations Investment Promotion Award.

UNCTAD highlighted good practices followed by Invest India, such as the Business Immunity Platform, Exclusive Investment Forum webinar series, its social media engagement and focus COVID response teams (such as business reconstruction, stakeholder outreach and supplier outreach) created as a response to the pandemic, in its publications. Invest India has also shared long-term strategies and practices being followed for investment promotion, facilitation and retention at UNCTAD's high-level brainstorming sessions.

This United Nations Investment Promotion Award is the most coveted award for Investment Promotion Agencies. UNCTAD is a central agency that monitors performance of IPAs and identifies global best practices. Germany, South Korea and Singapore have been some of the past winners of the award.

Mr. Deepak Bagla, MD & CEO, Invest India said, "The award is a testament to the Hon'ble Prime Minister's vision of making India a preferred investment destination. It bears testimony to his focus on Ease of Living, Ease of Doing Business and creating an Aatmanirbhar Bharat".

-PIB

State Mr. John Kerry as the first US climate envoy.

To conclude, the event provided a great opportunity to various countries, states, business houses and organizations to showcase their strategies, achievements and expectations. It also facilitated collaboration and cooperation with key stakeholders in India, which has emerged as one of the world's largest renewable energy markets today. Ministerial delegations from across the world, global industry leaders and large number of delegates participated in the event. The event included 6 focused country sessions, alongside over 20 plenary and technical sessions and a special Chief Ministerial plenary session.

It is hoped that the rapidly expanding power sector offers abundant opportunities for the qualified young graduates and post graduates with diversified backgrounds like Engineering, Commerce, Finance, Accounts, Human Resource, Law and Logistics etc. The solar sector has the maximum employment

generation potential - as per a study, it is estimated that over one million jobs will be generated to achieve 100 GW grid-connected capacity. 100 GW solar power is expected to create 13.10 lakh jobs by 2022. From 60 GW wind power 1.83 lakh jobs will be created by 2022.

IAS MAINS-2020 : STRATEGY FOR ETHICS PAPER

Continued from page 1

II. It is less textual and more contextual: Unlike other papers of GS, Ethics' syllabus is not text book oriented rather, it is contextual. Look at the themes of ethics are built around life itself. So our own experiences with life provide the biggest context to the syllabus. For example, today we are witnessing decline in human values, a moral decline, trust deficit, corruption in public life, etc. These themes become the subject matter of Ethics syllabus. Therefore, rather than looking for text based answers, one has to find contextual answers to the questions of Ethics.

III. Other components of the syllabus: The syllabus is not exclusively made up of only Ethics topics. There are other components also. For example, emotional intelligence and attitudes are topics belonging to social psychology. Similarly, topics dealing with civil services, utilisation of funds, citizen charters, RTI, etc belong to governance issues. The Ethics syllabus is titled: Ethics, integrity and aptitude. Not all questions are asked from Ethics angle. Many questions are being asked on India's governance issues which requires an understanding of how government and its apparatus functions and how to improve them. For example, citizen's

charter is a topic related to governance.

Understanding the scope of the syllabus: The Ethics syllabus comprises seven chapters and case studies based on these chapters. Marks are distributed between these two components almost equally. This calls for equal emphasis on both parts of the syllabus. Many candidates ignore case studies and keep preparing only for the first part of the syllabus till the last moment. This results in poor marking in case studies. Hence, due attention should be accorded to both parts of the syllabus.

Topic wise analysis of the ethics syllabus:

Chapter I: This chapter consists of the bulk of topics on Ethics. One should cover the following topics under this chapter.

1. Ethics and Human Interface: Ethics is not just a discipline of study but is related to human life itself. Reading Ethics is not just about knowing the good but also to become good. This way, Ethics has a close human interface.

2. Ethics in Personal and Public Life: Under this, one should learn about how ethics navigates both our personal and public lives.

3. Determinants of Ethics:

This calls for studying factors like religion, law, customs, various social and legal codes, constitution, technology, etc as main determinants of ethics.

4. Dimensions of Ethics:

Under this topic, personal, social, professional dimensions of Ethics should be comprehended. Also, dimensions of Ethics such as governance, environment, international relations should be covered.

5. Consequences of Ethics:

Ethics or lack of it, both will have consequences for our well being, peace, harmony, social and moral development. How practising ethical life will result in positive changes in life and ignoring it will result in distress, pain, restlessness should be probed.

6. Applied Ethics:

Though its not mentioned in chapter one, it is an extensive part of Ethics. The following applied aspects of Ethics should be studied

1. Environmental Ethics
2. Bio-Ethics: Euthanasia, abortion, surrogacy, reproductive technologies, cloning, medical Ethics, gene editing
3. Animal Ethics
4. Sports Ethics
5. Business and Corporate Ethics
6. Media Ethics
7. Ethics of Artificial Intelligence

7. Human values: Basic values like kindness, forgiveness, generosity, charity, love, compassion should be understood with examples. Also, the meaning of humanism, humanity, human rights must be covered.

8. Family, Society and Educational Institutions as agents of Values: Here, one should highlight the importance of these primary agents of value education. Why they are failing to impart the right human values also needs to be examined.

Rest of the chapters in the syllabus don't need to be decoded like the first chapter. The sub topics enumerated in these chapters should be followed.

However, it is important to familiarise yourself with important Ethics terminologies. These are: Autonomy, Accountability, Altruism, Benevolence, Categorical imperative, Compassion, Consequentialism, Courage, Deontology, Dilemma, Duty, Empathy, Eudamonia, Fairness, Feminist Ethics, Forgiveness, Generosity, Golden Mean, Good Temper, Goodwill, Happiness, Hedonism, Honesty, Integrity, Internalisation, Intuition, Justice, Kindness, Love, Moral Competence, Non-

Good Governance Day

"Empowering the individual means empowering the nation. And empowerment is best served through rapid economic growth with rapid social change."

Atal Bihari Vajpayee

Good Governance Day is observed annually on December 25 to create awareness of accountability in government among the Indians. The day marks the birth anniversary of former Prime Minister Atal Bihari Vajpayee. National Good Governance Day was established in 2014 to honor Atal Bihari Vajpayee by fostering awareness among the people of accountability in government.

Union Minister Dr. Jitendra Singh launched the 'Good Governance Index' at an event organized by the Ministry of Personnel, Public Grievance & Pensions, on the occasion of Good Governance Day i.e. 25th December 2019. The objectives of GGI are to provide quantifiable data to compare the state of governance in all states and UTs, enable states and UTs to formulate and implement suitable strategies for improving governance and shift to result oriented approaches and administration.

The purpose behind developing a comprehensive index, termed as Good Governance Index is to create a tool which can be used uniformly across the States, and eventually District-level, to assess the status of governance and impact of various interventions taken up by Central and State Governments including Union Territories (UTs). Sectors included in the Index are: Agriculture & Allied Sectors, Commerce and Industries, Human Resource Development, Public Health, Public Infrastructure & Utilities, Economic Governance, Social Welfare & Development, Judicial & Public Security, Environment and Citizen Centric Governance.

maleficence, Norm, Patience, Perseverance, Pity, Prudence, Responsibility, Right, Righteousness, Self Control, Sympathy, Temperance, Tolerance, Trust, Truthfulness, Utilitarianism, Virtue, Voluntariness, Wisdom.

Case Studies in Ethics

paper: While solving case studies, keep the following in mind

1. Locate the main issues that need to be solved.
2. Apply relevant ethical principles, rules, procedures to find a solution.
3. Don't give solutions which are difficult to implement. Use your common sense to find practical solutions.
4. Consider larger public interest while offering solutions.
5. Give reasons for your suggested solutions.
6. Don't follow a merit-demerit format of answer unless specifically asked for in the case study.
7. Write every case study in 200-220 words.

Quotations: In the Ethics paper, some quotations are being asked to be explained. For this, you must pick up famous quotes of Indian and foreign thinkers, philosophers, administrators. Also, some quotations from the Bible, Thirukural, etc should be compiled and mastered by you.

Finally, if you are able to solve last six years' question papers of Ethics, it will help you to cover the entire syllabus.
