CONTENTS

1. Implementation of High Signal to Error Variable Logarithmic Based Quantization Steps for Continuous Time Analog to Digital Converter 1-7
*Ambika Singh, Anchal Chauhan,
Pradeep Kumar and Gagan Minocha*
2. Speaker Independent Recognition of Spoken Punjabi Alphabets, Vowels and Auxiliary Signs 9-18
Puneet Mittal and Navdeep Singh
3. Buck Converter Fed DC Motor for Optimized PI-Controller Design 19-26
N. Janaki
4. A Dual-Stage PSO Based MPPT Algorithm for PV System under Partial Shaded Condition 27-38
CH. Santhan Kumar and R. Srinivasa Rao
5. An Efficient Adaptive Decision Feedback Equalizer based on Variable Step Size Strategy for Inter Symbol Interference Cancellation 39-47
*K. Murali Krishna, Md. Zia Ur Rahman, G. Bhargavi,
A. Deepthi, B. Hyndavi and D. Lakshmi*
6. Performance Analysis and Design of Automatic Attack Identification for Ad-Hoc Wireless Channel and Improvement in Coverage 49-59
Savita Patil and A.M. Bhavikatti
7. Mathematical and Algorithmic Foundations of Resource Allocation upon Parallel Development 61-68
*Sergey Alekseevich Barkalov, Oleg Jakovlevich Kravets,
Pavel Nikolaevich Kurochka, Tatyana Vladimirovna Nasonova
Alla Ivanovna Polovinkina*
