URBAN HOUSING : A STORY OF GROWTH AND REJUVENATION

Sameera Saurabh

India is heralding in an era of New Transformation, which has enormous prospects for growth. We are expected to become a \$5 trillion economy by 2024-25 and aspiring to become a \$10 trillion economy by 2030. There is huge potential for entities to play a transformational role. New India that is taking shape has humongous opportunities for large-scale development to meet the aspirations of the Young India. Between now and year 2030, approximately 700 to 900 million square meters of urban space every year will required to be constructed. India is witnessing rapid urbanisation. According to Census 2011, India's urban population was 37.7 crore, which is projected to grow to about 60 crore by 2030. Urbanization in India has become an important and irreversible process, and it is an important determinant of national economic growth and poverty reduction.

Importance of Real Estate Sector

The Real Estate Sector is one of the largest contributors to the economy and the second largest employer. Real Estate Sector contributed around 7% to India's

GDP in 2018-19 and its share is expected to grow to around 13% of India's GDP in 2025. Besides, as per Economic Survey 2017-18 this sector employed around 4 crore people in 2013, which is estimated to be around 5.5 crore in 2020. Clearly, growth of Real Estate Sector has several socio-economic gains to offer. Real Estate is an important sector with strong forward and backward linkages, particularly with the core sectors of the economy, such as steel, cement and other buildings materials. It directly/indirectly impacts 270 different industries. On 5th October 2021, Hon'ble Prime Minister Shri Narendra

Modi while inaugurating Azadi@75 Conference and Expo at Lucknow highlighted the importance of technology. He said that:

"In 21st century India, the most important way to revive cities is the maximum use of technology. The institutions involved in the development of cities and the city planners will have to give top priority to technology in their approach."...

.... "The huge change in the urban sector in India in the last 6-7 years has been made possible only due to technology."

❖ Real Estate Resurgence- Post Covid:

Due to COVID-19 global pandemic, along with other sectors, the real estate sector was also affected. Pandemic has paved the way for innovation and change, necessitating a relook at the real estate portfolios by builder and buyers both. The first quarter of FY 2020-21 witnessed low sales/launches. However, the situation has improved significantly thereafter and sales are almost back to pre-Covid levels.

As indicated in various reports and surveys, there are positive signs of demand as market fundamentals continue to remain strong under transparent and accountable regulatory regime of RERA. Various confidence-building measures by Central Government have also supported the sector when most needed. It has been observed that for residential real estate, the change in buyer preferences such as the need for additional space, demand for amenities, and the sudden realization of owning a house in troubled times

CAREER IN THE REAL ESTATE INDUSTRY

Nidhi Prasad

What is Real Estate?

The term 'real estate' refers to the ownership of land or building and those who deal in such transactions are real estate agents or brokers. They help people buy, sell or lease homes, buildings and land. It is one of the most globally recognized sectors. It comprises of four sub sectors - housing, retail, hospitality, and commercial.

Residential Real Estate means houses, bungalows, condominiums, duplex homes etc. where people live, while Commercial Real Estate includes office buildings, office complexes, industrial premises etc. Residential real estate agents specialize in working with individuals and families, while commercial agents deal with office space and buildings.

Real estate in India gained tremendous growth in past few decades. The second largest employment generating sector in the country after agriculture, it has opened doors for direct

foreign investment in India and enhanced career prospects for professionals and agents.

Property or Real Estate Management, often known as Area Management, in some cases also involves rent collection, outgoings of payments, insurance payments, managing payment of maintenance staff, and negotiating while using current and prospective

tenants. Property or Real Estate Managers, responsible for the operation of various real estate properties, help to coordinate all financial and administrative operations of real estate investments. They focus on

maximizing real estate profit for businesses and investors.

A real estate consultant deals with high-value property assets. He needs to have a clear understanding of what each client is looking for, align these requirements with the broader market scenario and be able to deliver value in a complex and unstructured marketplace. His services range from showing properties, analysing area sales statistics, examining contracts before making offers or closing deals etc. Negotiation skills are absolutely mandatory to succeed in this field, and these are best picked up by observing seasoned veterans.

Most real estate agents are independent sales people who work for a real estate brokerage firm, or provide their services on

cemented the revival. Going ahead, digitization and online presence are the keys for real estate sector. It is evident that property purchase is becoming affordable due to various reasons such as- housing loans being available for interest rates as low as 6.65%, reduction in stamp duty, circle rates, single window system etc.

❖ Sales Trends

Due to various measures taken by the Government as a result of learning from first wave and use of smart lockdown at local level, sales volumes during Q2 2021, though lower in absolute numbers, were still higher as compared to Q2 2020.

V-shape recovery of the

many such steps taken, the key steps are:

➤ Real Estate (Regulation and Development) Act [RERA]- A Game Changer

In pre-RERA era, Indian Real Estate sector was largely unregulated till the year 2016, which led to many anomalies resulting in various unfair practices, which ultimately affected the homebuyers adversely. Therefore, a need was being felt for long time to regulate the sector in such a way so as to ensure transparency and accountability. RERA marked the beginning of a new era in the Indian real estate sector and a step towards reforming the real estate sector in India, encour-

society such as poor migrants, labour, young workers, working professionals and especially students. Acknowledging the importance of requirements of rental housing, the Ministry of Housing and Urban Affairs, Government of India drafted a Model Tenancy Act to balance the interests and rights of both landlords and tenants to promote rental housing.

MTA aims to balance the interests and rights of both the landlord and the tenant in an accountable and transparent manner. MTA prescribes a speedy dispute resolution mechanism. It is hoped that MTA will enable unlocking of vacant premises for rental purposes and create a vibrant and sustainable rental market for housing. After approval of Union Cabinet on 2nd June 2021, MTA has been shared with the States/Union Territories (UTs) for adoption either by legislating a new law or by amending existing rental laws suitably. States of Tamil Nadu, Andhra Pradesh and Uttar Pradesh have already notified Tenancy Acts based on earlier draft of MTA and these States have been requested to align their tenancy laws with the latest version of MTA. Recently, Assam Tenancy Act, 2021 has been enacted in the State of Assam also. MoHUA is in constant touch with all the States and UTs to ensure adoption of MTA across the country by March 2024.

❖ Affordable Rental Housing Complexes (ARHCs)

In the wake of COVID-19 pandemic, aligning to the vision of "AtmaNirbhar Bharat" Ministry has initiated Affordable Rental Housing Complexes (ARHCs) for urban migrants/ poor. A first of its kind in the country this initiative will not only improve the living conditions of urban migrants/ poor from EWS/ LIG categories including labour, urban poor but also obviate the need for staying in slums/ informal settlements/ peri-urban areas etc. ARHCs will play a vital role in wealth creation, development of infrastructure, and provide dignified living with all basic amenities to the urban poor/migrants. This scheme will be implemented through two models- one, by utilizing existing Government funded (Central or State) vacant housing complexes in cities by converting them into ARHCs under Public Private Partnership (PPP) mode or by Public agencies and two, by incentivizing Public/ Private Entities to construct, operate and maintain such complexes on their own available vacant land.

Need for Promotion of Affordable Housing in India

As the Indian middle class expands, the demand for affordable housing is likely to increase even further. Consequently, the potential

market size for affordable housing in urban India is forecasted to grow about 1.5 times from an estimated 25 million households in 2010 to 38 million in 2030. With the adoption of the PMAY policy in 2015, the Government of India has targeted to meet a demand of 11.22 million homes. Since the launch of the policy to 31st March 2021, 11.3 million houses have been sanctioned, out of which, 4.8 million have been completed to date. The need for affordable housing in the growing urban sprawls of India has caught the attention of many developers, who are seeking to exploit this growing demand. Over 50% of all India residential launches in the top eight cities in the last 5 years have been in the sub-Rs 50 lakh segment.

Affordable housing refers to housing units that are affordable for those with income below the average household income. In India, affordable housing is provided for low income people, middle income people and economically weaker sections who have considerably low levels of income (urban areas). Affordable housing is a key issue in developing countries like India where majority of the population is not able to buy houses because of the high market price. Affordable housing in rural and urban housing sector need differently tailored policies as land is the main constraint in the urban areas.

As our country is going through an economic transition characterised by demand for better housing facilities, there is a widening gap between the demand for houses and its availability. Both in the urban and rural areas, there is lack of proper housing facilities.

As per the Report of the Technical Group on Estimation of Urban Housing Shortage (2012), there is a huge gap in demand and supply of housing both in the urban and rural areas.

According to the Technical Group Report, two low income categories – economically weaker sections (EWS) and low-income group (LIG) accounted for 96 per cent of the total housing shortage in India. Given the need for houses and increasing trend of urbanisation, housing facilities in urban areas

have to be expanded. With the current progress of urbanisation, around 40% of the country's population is expected to live in urban areas by 2030.

Recognising the importance of providing housing to the poor sections, Government has initiated a group of measures over the last fifteen years. As a beginning, the National Urban Housing and Habitat Policy (NUHHP), 2007 has set the objective of Affordable Housing for All as a key focus. Later, the government has set 2022 as the target year to realize this objective by making specific initiatives for the promotion of housing. Two components under Pradhan Mantri Awas Yojana – the PMAY (Urban) and PMAY (Rural) were launched by the Government for achieving housing for all by 2022.

Government measures to support Affordable Housing

There are several government initiatives some of them working for helping poor people to build new houses. Many of the supporting measures were launched in the past budgets. In the Union Budget 2017-18 the government:

1. Granted infrastructure status to affordable housing- Infrastructural status will help affordable housing developers to avail funds from different channels, like external commercial borrowings (ECB), foreign venture capital investors (FVCI) and foreign portfolio investors (FPIs).
2. Increased the time for project completion to affordable housing promoters from earlier three years to five years;
3. Provided one-year time to developers to pay tax on notional rental income on completed but unsold units;
4. Reduced the tenure for long-term capital gains for affordable housing from three to two years;
5. Revised the qualifying criteria for affordable housing from saleable area to the carpet area;
6. Enhanced the refinancing facility by National Housing Bank (NHB) for individual loans for the affordable housing segment.

estimated urban housing shortage of 187.8 lakh. On the other hand as per Census 2011, nearly 1.1 crore houses were lying vacant in urban areas across country. The existing rent control laws are restricting the growth of rental housing and discourage the owners from renting out their vacant houses due to fear of losing repossession. As a result, stakeholders are led towards black and uncontrolled rental housing markets.

AFFORDABLE HOUSING FOR ALL

AKHIL KUMAR MISHRA

Budget 2022 has one spectacular aspect to it. Union Finance Minister has announced allocation of Rs 48000 crs under Prime Minister's Awas Yojana where it is expected to complete around 80 lakh houses for socially needy persons in the financial year 2022-23. Similarly, allocation of Rs 60000 crs to cover 3.8 crore households for tap water to boost the Affordable Housing sector is a major step in this direction. At the same time, the Budget stresses on Urban Development for pushing employment in the urban areas and encourage the upcoming talents. More employment will boost spending capacities of the households. This in turn will contribute to the growth in the economy.

The real estate is one sector which was hard hit by the Pandemic in recent years. In a country like India's size and population, the need for housing is a historical one. Housing shortages have been felt for ages due to ever growing populations, inspirational changes, nuclear family living and also life style needs. Every urban and rural family wants to stay in a dignified way. Added to that, segments of populations like single working women, aged citizens, students and start up smaller entrepreneurs need their specific accommodation requirements due to specific works. The working class, lower income and those having sporadic incomes often are not able to get affordable houses within their active working life. At the same time, intracountry migration, displacements, livelihood changes, industrial reorganisations and technological changes have also resulted in variations in the income generation of people. Therefore the need for affordable housing has increased more.

Given the backward and forward linkages with ancillary industries, the plan to support the construction of over 80 lakh such houses will help in pushing demand for construction materials. The Budget proposal is expected to help the government move towards the achievement of its stated objective of Housing for All.

Concept of 'Affordable Housing'

Definition: Affordable housing refers to housing units that are affordable by that section of society whose income is below the median household income.

Description: Different coun-

tries have different definitions for affordable housing, but it denotes largely the same, i.e. affordable housing should address the housing needs of the lower or middle income households. Affordable housing becomes a key issue especially in developing and newly emerging nations where a majority of the population finds it difficult to buy houses at the market price.

Disposable income of the people remains the primary factor in determining the affordability. As a result, it becomes the increased responsibility of the government to cater to the rising demand for affordable housing. The Government of India has taken various measures to meet the increased demand for affordable housing along with some developers and stressing on public-private partnerships (PPP) for development of these units.

PMAY (Pradhan Mantri Awas Yojana) backgrounder

In India, the level of urbanisation increased from 27.81% in 2001 to 31.16% in 2011 as per the last Census report. A rough estimate indicates that around 35% of Indian population are at present living in urban areas. This census also states that total number of internal migrants per annum stands around 139 million. Similarly the Inter-state migration in India has been close to 9 million annually between 2011 and 2016. Urbanisation

The Central Government has a theme 'Housing for All by 2022'. To achieve it, it had introduced the PMAY scheme. PMAY is a Central Government affordable housing scheme for Lower Income Groups (LIG) and Economically Weaker Sections (EWS) and Middle Income Group (MIG) consumers. This scheme is divided into Rural and Urban chapters. Let's see who all are eligible to avail benefits of Pradhan Mantri Awas Yojana.

Rural Areas

The following broad criteria is necessary for availing PMAY in Rural Areas

- A- Houseless Families & Families with houses having zero, one or two rooms with a Kutch wall and Kutch roof
- B- Households without a literate adult above 25 years & Households without an adult/adult male member between 16 and 59 years of age/without any able bodied members and with disabled member
- C- Landless households who derive income from casual labour
- D- Scheduled Caste, Scheduled Tribe, Others and Minorities

Urban Areas

As per PMAY (U) guidelines, the size of a house for Economically Weaker Section (EWS) could be up to 30 sq meter carpet area, however, states and UTs have the flexibility to enhance the size of houses in consultation with and

A Critical Look into Policy

Pradhan Mantri Awas Yojana-Urban (PMAY-U) The PMAY which was launched in June 2015, aims at providing affordable housing to the urban poor. In November 2016, a rural component was added. PMAY-U intends to subsidize the construction of around 1(one) crore urban houses, by providing Central assistance to similar number of eligible families or beneficiaries over the period FY 2015-22. The mission is being implemented through four verticals, as detailed below:

Supply-side intervention: In-situ slum redevelopment (ISSR) with participation of private developers provides 'pucca' houses to eligible slum dwellers by redevelopment of existing slums on private/public land. Private partners are selected via an open bidding process, based on the lowest cost of construction per unit; extra FSI/TDR/FAR is provided to make the projects financially viable. A grant of Rs. 1 lakh per house is provided by the Central Government to the planning/ implementing authorities of the States and Union Territories.

Affordable housing in partnership with public and private sector - Provides central assistance of Rs 1.5 lakh per EWS house in projects where at least 250 houses are being constructed and 35% of the houses are for the economically weaker section (EWS).

Affordable housing through credit-linked subsidy scheme (CLSS) - Focuses on expanding institutional flow of credit by providing interest subsidy of 3-

6.5%. Subsidy for a maximum tenure of 20 years is credited upfront to the beneficiary accounts, for new construction loans as well as enhancements.

Subsidy for individual-led house construction/ enhancements -

It provides Central assistance of Rs 1.5 lakh to eligible EWS families for construction of new houses or enhancement of existing houses. Beneficiaries living in slums, which are not being redeveloped, can be covered under this component if they have a kutch/ semi-pucca house.

While the EWS beneficiaries are eligible for assistance under all four verticals, LIG and MIG categories are eligible only for the CLSS component. With the Government push for affordable housing through provision of land, subsidies and incentives, private sector participation in the lower-ticket-size segment has been ramping up at a considerable pace, resulting in some narrowing of the demand-supply gap. The addition of the PPP policies, with land being provided by public authorities, was an important step, given that the availability of low-cost land has been a key challenge in the development of affordable housing units, particularly in urban areas. Demand has been outstripping supply in city-centric areas with a dire need for affordable housing, resulting in high land prices. In fact, depending on project location, land costs can vary anywhere between 20% to 60% of the total project cost. On the other hand, buyers of affordable housing are typically price-sensitive end-users, which results in low pricing flexibility and limited scope for margin expansion for the developer.

As on date, large tracts of vacant land are available with the Central Ministries, especially the Ministry of Defence, the Ministry of Railways, and the Ministry of Civil Aviation.

and migration are life changing factors that require new settlements to absorb people. Existing accommodations are not enough to service the floating populations. AFFORDABLE HOUSING FOR ALL

Identification and strategically planned absorption of such unutilised land, with earmarking for affordable housing, would address the key need of the hour, pertaining to unlocking of land at appropriate locations. Land available with certain loss-making PSEs, such as HMT Bearings in Hyderabad, Hindustan Antibiotics in Pune, Heavy Engineering Corporation in Ranchi, Indian Drugs and Pharmaceuticals in Gurgaon, Tungabhadra Steel Products in Karnataka and HMT Watches in Nainital, has already been identified. National Building Constructions Corporation Ltd, NBCC has been appointed as the land management agency to auction the real estate assets of loss-making companies.

Pradhan Mantri Awas Yojana - Gramin (PMAY-G): With the aim of addressing gaps in rural housing and providing Housing for All by 2022, the earlier Indira Awas Yojana (launched in 1996) was restructured into PMAY-G from April 1, 2016. The restructured mission has two phases:

Phase I targeted at providing 'pukka' houses to 1 crore households living in 'kutcha'/dilapidated houses over the period FY 2017-19. Phase-II has a goal of providing coverage to 1.95 crore households over the period FY 2020-22, with an immediate target of 60 lakh houses in FY 2019-20, before the pandemic started.

The mission functions through the provision of cash incentives for the development of pucca homes and also ties in the requirement for each such house to have a cooking area, toilet, LPG connection, electricity connection and water supply through convergence with other relevant schemes like the 'Swachh Bharat Mission-Gramin (SBM-G)', 'Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS)', etc. Developed houses are required to have a minimum size of 25 sq. mt. and are to be constructed within 12 months of the sanction date.

Overview of Government Assistance provided to Beneficiaries :

• **Financial assistance per Unit:** Provision of Rs 1.2 lakh per unit in plains and Rs 1.3 lakh in hilly states, difficult areas and Integrated Action Plan districts.

A beneficiary under PMAY in Keonjhar District.

The cost is to be shared between Central & State Governments in ratio of 60:40 for plain areas and 90:10 for north-eastern and Himalayan states

• **Provision of unskilled labour-** Provision of 90-95 days unskilled labour wage under MGNREGA for construction of house Labour may be contributed by other workers in case beneficiary has exhausted his/her 100 days under the scheme

• **Support Services-** Development and provision of house design typologies, Training of masons Sourcing of construction material, Facilitation of loans up to Rs 70,000 from banks. Beneficiaries are selected using housing deficiency and other social deprivation parameters in the Socio Economic and Caste Census, 2011 which is further verified by gram sabhas.

The beneficiaries are chosen by the Gram Sabha, according to the data collected on the national level Socio-Economic and Caste Census. The aim is to draft the list of socially and economically backward masses of the country to categorize the list of beneficiaries under the plan

PMAY Rural scheme. If the applicant's name is listed in the released list of the Gram Sabha, he/she is eligible to apply for a home loan under PMAY rural scheme.

Budget Implications

Industry observers are of the understanding that "The Prime Minister Housing Scheme" is expected to achieve the

Hit hard by the pandemic and some policy reforms, the real estate sector had high expectations from the Budget 2022. However, while most of its hopes can be analysed after a careful study of the provisions in the budget, there are definitely some good news for affordable housing.

Single-window environmental approvals will also help to grow affordable housing more in the times to come.

Also, the government's focus on urban development will push employment in the urban cities and encourage upcoming talent. With more employment, the spending capacities of households will increase, which in turn will boost the overall economy and with this we expect the housing market to further improve as the sector just needs positive sentiment.

It also needs to be noted that connectivity has always helped real estate. So, with road construction given a boost by increasing the target to 25,000 kms of National Highways construction, the sector is likely to benefit.

Industry experts said the Union Budget 2022-23 is forward looking and focuses on a long-term plan for the country with digitization, urban development, and sustainability at its core.

Policy Overview - Technology Sub-Mission with construction costs and timelines being key concerns for developers of affordable housing units, the Government introduced a Technology Sub-Mission under the PMAY-U to facilitate the adoption of modern, innovative and green construction technologies and construction material for faster and improved quality of construction. Sixteen new technologies of formwork systems, panel systems, steel structural systems and pre-cast concrete construction systems have been earmarked for adoption. Use of the same is expected to lead to cost and time efficiencies, thereby making the construction of such spaces more financially viable.

Some Affordable Housing Schemes in India

Main points:

1- Affordable Houses come at a price less than market prices

2- Housing projects all over the country by Government departments and PSUs reserve certain percentage of houses under Affordable category.

Apart from being an economic activity, Housing provides the below benefits.

- 1- Creation of Jobs
- 2- Opportunities for Economic Development
- 3- Increased Job Retention and Productivity
- 4- Greater Generation of Tax
- 5- Ability to address Inequality

Affordable Housing as a category addresses the above for a better socio-economic distribution of state resources and inter-sectoral growth.

The Government of India and the State Governments provide housing schemes to Indian citizens so that they can buy their homes easily. Irrespective of the class or group they belong to, these housing schemes allow the middle and lower income group to buy their own houses in India, which they are unable to do due to their financial constraints. A housing scheme helps avoid costly property purchases and provides a house at a lower price than the market price. One can apply for the housing scheme from the selected Housing Finance Companies (HFCs) or banks. Let us check out some of the government housing schemes from which one can buy a property in India at less cost than the market price.

1. Pradhan Mantri Awas Yojana (PMAY)
2. Haryana Housing Board Housing Scheme
3. Kerala Housing Board Scheme
4. The Maharashtra Housing and Area Development Authority Scheme
5. Delhi Development Authority DDA
6. NTR Urban Housing Scheme
7. Tamil Nadu Housing Board Scheme
8. Odisha Housing Board Scheme
9. West Bengal Housing Board Scheme

The government's push in Union Budget proposal of Rs 48,000 crore outlay for helping build low-cost houses in both rural and urban regions across the country is expected to boost the affordable housing segment and ancillary industries including cement and steel.

URBAN HOUSING : A STORY OF ...

As per the RBI incentive measures, the cost of affordable residential property should be less than Rs. 65 lakh in metro cities and Rs. 50 lakh in non-metros.

The central bank's definition is based on the loans given by banks to people for building a house and buying flats.

The RBI also gives loans to affordable housing under priority sector lending.

RBI allowed banks to issue long term bonds (of minimum 7 years maturity) to finance loans to affordable housing.

PROGRAMMATIC MEASURES

Pradhan Mantri Awas Yojana- Urban: Ministry of Housing and Urban Affairs is implementing the Pradhan Mantri Awas Yojana- Urban (PMAY-U) to fulfil the vision of Hon'ble Prime Minister- 'Housing for All' by 2022. PMAY-U adopts a cafeteria approach where a beneficiary can choose one out of the four verticals of the Mission: Beneficiary Led Construction (BLC), Affordable Housing in Partnership (AHP), Credit Linked Subsidy Scheme (CLSS) and In-situ Slum Redevelopment (ISSR).

The Mission has registered outstanding success as evident from the fact that about 1.14 crore houses have been sanctioned for its beneficiaries, out of which around 89 lakh houses are grounded and around 52 lakh have been completed.

The houses sanctioned under the Mission involve an investment of Rs. 7.38 lakh crore with Central Assistance of Rs. 1.82 lakh crore. As of now,

over Rs. 1.06 lakh crore of Central Assistance has already been released. Infusion of such a large amount of funding has propelled the economy. The current investment made by the Government in the sector, has created almost an estimated 705 crore person days of employment translating into around 252 lakh jobs and led to consumption of 380 Lakh MT of cement and 86 Lakh MT of steel.

Sustainable Development Goals (SDGs): PMAY-U addresses the SDGs for Reduction for Poverty (Goal 1), Women Empowerment for Gender Equality (Goal 5), Ensuring Clean Water and Sanitation (Goal 6), Access to basic services, energy, housing for making Sustainable Cities and Communities (Goal 11) and investment in low carbon development through Technology Sub-Mission for Climate Action (Goal 13).

In Union Budget 2021-22, to boost the Real Estate Sector, various measures had been taken, the key measures were:

- **Extension of Income Tax Exemption for Affordable Housing Project:** In line with Hon'ble Prime Minister's vision of "Housing for All", the benefit of 100% exemption from income tax on profits earned from affordable housing projects under Section 80-IBA of the Income Tax Act has been extended by another year i.e. upto 31st March, 2022.
- **Extension of additional**

deduction of Rs. 1.5 Lakh on Home Loan Interest: In order to provide impetus to affordable housing, the benefits of additional deduction of Rs. 1.5 Lakh for the homebuyers interest paid on home loan (over and above Rs. 2 Lakh under section 24 of Income Tax Act) has been extended for another year i.e. upto 31st March, 2022 under Section 80EEA of Income Tax Act.

- To promote REITs (Real Estate Investment Trusts), Tax Deduction at Source (TDS) for dividend payments to holders of REITs has been exempted.

Various policy initiatives taken by Central Government to boost the Real Estate Sector:

- **Reduction in GST** from 8% to 1% (with no input tax credit) for Affordable housing and for other housing projects from 12% to 5% (with no input tax credit).
- **Affordable Housing Fund** established in National Housing Bank in 2018, with backlog of priority sector lending to reduce interest burden on Affordable Housing.
- **National Urban Housing Fund:** EBR of Rs. 60,000 Cr approved in February 2018, wherein Rs. 53,000 Cr has already been drawn.
- **Benefits under Section 80 IBA of IT Act** extended for one more year, till 31st March 2022. Also, size limit of Affordable Housing Unit for section 80-IBA has been increased from 30 to 60 sq mtr in Metropolitan regions and 60 to 90 sq mtr in non-metropolitan regions for

affordable housing unit valued upto Rs. 45 lakh.

- Infrastructure status has been accorded to Affordable Housing by including it in Harmonised List of Infrastructure.
- 100% FDI allowed under automatic route in construction projects.

Key Measures under 'Atmanirbhar Bharat' campaign during Covid-19 Pandemic:

- **Advisory issued by Central Government** to all States/UTs for granting extension to RERA registered projects.
- **Lower Repo Rate and Reverse Repo Rate:** To increase liquidity in the market, RBI lowered the repo rate considerably to 4% and Reverse Repo Rate has been reduced to 3.35%. This step encouraged the banks to deploy surplus funds in investments and loans in productive sectors of the economy.
- The issue of liquidity being faced by NBFCs, HFCs and MFIs is largely being addressed by infusion of Rs. 75,000 crore.
- **Rs. 18,000 Crore Additional outlay of for PMAY (U):** A sum of Rs 18,000 Crore has been provided for PMAY-Urban over and above Rs. 8,000 Cr already allocated. This is helping to ground 12 Lakh houses and complete 18 Lakh houses, create additional 78 Lakh jobs and improve production and sale of steel and cement, resulting in multiplier effect on economy.
- In order to give relief to homebuyers, developers and other borrowers, RBI permitted lending institutions to grant total moratorium of 6 (3+3) months on payment of current dues falling between 1st March, 2020 to 31st

August, 2020.

- In Union Budget 2022-23, reiterating the commitment towards providing Housing for All, Government allocated Rs. 48,000 crore for affordable housing.
- This financial commitment will not only provide shelter but also add dignity in the lives of 80 lakh beneficiary households, benefitting around 4 crore citizens of the country. Out of these 80 lakh, around 27 lakh houses will be in the urban areas of the country.
- **Special Fund to revive the Stalled Projects:** **Alternate Investment Fund (AIF)- Special Window for Affordable and Mid-Income Housing Fund (SWAMIH)** Investment Fund was established to provide last mile funding for projects that are net-worth positive and registered under RERA, including those projects that have been declared as Non-Performing Assets (NPAs) or are pending proceedings before the National Company Law Tribunal (NCLT) under Insolvency and Bankruptcy Code (IBC).
- As per last update (as on 14th February, 2022), 249 deals aggregating to Rs. 23,778 Crore have been approved and this will benefit more than 1,46,946 homebuyers and unlock projects worth Rs. 66,163 Crore.

With all these reformative steps, it is hoped that resurgence of Real Estate will lead to overall and cascading impact on economy.

Pradhan Mantri Awas Yojana to fulfil the dream of 'Housing for All'

Chandan Kumar Choudhary

Praveen hails from Thane district of Maharashtra. Earlier he used to live in a rented house but now he has got his own house due to Pradhan Mantri Awas Yojana. He says, "I didn't have a house of my own. In such a situation, I used to live in a rented house but today I have my own house due to the Pradhan Mantri Awas Yojana. Praveen is a beneficiary of Pradhan Mantri Awas Yojana and he is extremely happy with this step taken by the government. According to him, the help that the government is giving is very important for the common man.

At the same time, Ashiq Hussain, who lives with his family in Khari Kamra, the last border village in Poonch district of Jammu and Kashmir, is one such person who has got the benefit of this scheme. His village is on the border, after which there is no populated area till the border. His family has lived in the shadow of fear of cross-border firing for decades. Many people like Ashiq Hussain, who lived in kutcha houses, were not able to build pucca houses due to their financial condition. In rainy season, the water used to

come inside the house and all their belongings would get wet. In such a situation, due to the Pradhan Mantri Awas Yojana, there was a sunrise of change in his life. Hussain says, "During the rainy season, water used to enter the kutcha house. There was a lot of trouble in that. But there is no such problem in a pucca house." He says that he is happy with the Pradhan Mantri Awas Yojana because the poor have got support and can stand on their feet.

Vimlesh, a resident of Agra,

earlier used to live in a kutcha and broken house but now she lives in a pucca and good house at the same place. She tells that they have benefited from the Pradhan Mantri Awas Yojana and live in a new house. A similar story is also of Ram Janki Pal of Kanpur, who works as a milk seller, who has got a house under the Pradhan Mantri Awas Yojana-Urban. He says that his house was built two years ago.

Today, if the dream of the poor of the country and the people who have been living in kutcha

and broken houses for centuries is being realized, then it has become possible due to the Pradhan Mantri Awas Yojana. Under this, the dream of a pucca house of poor people in both urban and rural places is being fulfilled. Not only this, women empowerment is also possible through this scheme because more and more women are being given the ownership of the house under this scheme. Pradhan Mantri Awas Yojana is divided into two categories. One is Pradhan Mantri Awas Yojana Gramin which is known as PMAY-G and the other, Pradhan Mantri Awas Yojana Urban which is known as PMAY-U.

PMAY-G will continue till March 2024

Home is such an arrangement, which increases the confidence of the people. Earlier the poor did not believe that the government could help in building a house but now it is becoming possible. One of the flagship programs of the Government of India, Pradhan Mantri Awas Yojana is a program inspired by the noble objective of providing "Housing for All" under which new technologies are being used in the construction of houses.

Through this scheme with social welfare programme, the government aims to provide financial assistance to the homeless beneficiaries and help them build a house of respectable quality. Under this effort, the Union Cabinet on 8 December 2021 approved the continuation of Pradhan Mantri Awas Yojana-Gramin (PMAY-G) beyond March 2021 till March 2024 at an expenditure of Rs 2,17,257 crore. This will ensure 'Housing for All' in rural areas.

Continuation of this scheme till March 2024 will ensure that the remaining 155.75 lakh families under the overall target of 2.95 crore houses under PMAY-G will be provided financial assistance for construction of 'Pucca Houses' with basic facilities, so as to achieve the objective of

'Housing for All' in rural areas. As of November 29, 2021, out of the target of 2.95 crore houses under PMAY-G, 1.65 crore houses had been constructed. It is estimated that 2.02 crore houses will be completed by the 15 August 2022 deadline. Hence the scheme needs to be continued till March 2024 to achieve the overall target of 2.95 crore houses.

Pradhan Mantri Awas Yojana - Rural completes 5 years

Pradhan Mantri Awas Yojana-Gramin (PMAY-G) was launched on November 20, 2016. Thus Pradhan Mantri Awas Yojana - Gramin, successfully completed 5 years on 20th November, 2021. The Ministry of Rural Development in partnership with the State Government has been striving to meet the target with in the time limit while ensuring the fulfillment of the noble objective of Housing for All. The Government of India had launched the Revised Rural Housing Scheme to achieve the objective of providing "Housing for all" by the year 2022. Under this scheme, a target to build and provide 2.95 crore PMAY-G houses, with all basic amenities, was to be completed by the year 2022.

Fulfillment of aspirations of homeless and poor people through Sabka Saath, Sabka Vikas, Sabka Vishwas and Sabka Prayas are the fundamental results of the policy. Keeping this in mind, Rs 48,000 crore were allocated for Pradhan Mantri Awas Yojana in the Union Budget 2022 and efforts are being made to achieve the target of building 80 lakh houses. Not only this, the process of construction of light house projects under PMAY (Urban) is also underway in six cities across the country using new technologies to promote affordable housing. This is why Prime Minister Narendra Modi has been emphasizing that such construction technologies should be encouraged along with other affordable housing projects in both urban and rural areas of the country. Not only this, construction of a house also increases job opportunities and construction of a house gives 314 days of employment. Indeed, residential construction is one of the largest sources of employment in rural areas.

Pradhan Mantri Awas Yojana to help in Women empowerment

Empowerment of women is becoming possible through Pradhan Mantri Awas Yojana and they are also getting ownership rights. Prime Minister Narendra Modi says, "I am also happy that in the houses being

Pradhan Mantri Awas Yojana to fulfil the ...

given under the PM Awas Yojana in the country, more than 80 percent of the houses are owned by women or they are joint owners." These words spoken by Prime Minister Narendra Modi tell the story of women becoming empowered. Due to this women are not only becoming empowered but are also becoming self-reliant. Not only this, the poor are also getting the benefit of many facilities simultaneously from other schemes like Swachh Bharat Mission, Pradhan Mantri Ujjwala Yojana, etc.

Who gets the benefit of this scheme!

Under the Pradhan Mantri Awas Yojana, any person with low income who does not have any house can take advantage

of it. To fulfill the eligibility of Pradhan Mantri Awas Yojana, the beneficiary should not have his own house. Also, the beneficiary person should not have taken advantage of any other housing scheme of the state or central government. Under the Pradhan Mantri Awas Yojana, the government provides houses to the homeless people and at the same time they get subsidy, those who buy a house or flat on loan.

Features of PMAY-G Scheme

Beneficiaries under PMAY-G are selected on the basis of housing deprivation parameters as per the Socio Economic Caste Census 2011. Also, it gives priority to the homeless, families living in houses with one and two kucha walls and kucha

roof. If there is any grievance in the selection of the beneficiary, then an appellate process has also been made for its redressal. In this scheme, the amount is sent directly to the accounts of the beneficiaries through DBT. The beneficiaries of the scheme include SC, ST, free bonded labor and non-SC, ST categories, widows or kin of defense personnel killed in action, ex-servicemen and retired members of paramilitary forces, persons with disabilities and minorities. Also, the total cost of this scheme is shared between the Central Government and the State Governments in the ratio of 60:40, while for North Eastern and Himalayan states this amount is shared in the ratio of 90:10. The minimum size of the house to be built under this

scheme has been increased from 20 square meters to 25 square meters (including a clean kitchen).

Features of PMAY-U Scheme

Pradhan Mantri Awas Yojana-Urban is implemented under the Ministry of Housing and Urban Affairs.

Modern, innovative and green technologies have been used for speedy and quality construction of houses under this scheme. Also, the process of project preparation and approval as per the guidelines of the Mission has been left to the States so that projects can be prepared and completed faster. Under PMAY-U, all households are provided with basic amenities like toilets, water supply, electricity and kitchen. In this scheme, priority is given to persons with disabilities, senior citizens, scheduled castes, scheduled tribes, other backward classes, minorities, single women, transgender and weaker sections of the society. Six years of Pradhan Mantri Awas Yojana - Urban (PMAY-U) were completed on 25 June 2021. This scheme was launched in the year 2015 with the objective of providing pucca houses to all eligible beneficiaries of urban India by the year 2022 with the vision of 'Housing for All'.

Approval for construction of 1.07 lakh houses under PMAY-U

The Central Government gave its approval in December 2021 for the construction of 1.07 lakh houses in five states under the Pradhan Mantri Awas Yojana (Urban). The proposal was approved by the Central Sanctioning and Monitoring Committee (CSMC) headed by the then Union Housing and Urban Affairs Secretary Durga Shankar Mishra. According to the Union Ministry of Housing and Urban Affairs, project proposals for construction of 1.07 lakh houses have been approved from Andhra Pradesh,

Madhya Pradesh, Maharashtra, Puducherry and Uttarakhand under the Pradhan Mantri Awas Yojana (Urban). Apart from this, the progress of implementation of this scheme in other states was also reviewed. According to the ministry, the total number of houses sanctioned under this mission is now 1.14 crore, out of which more than 53 lakh houses have been distributed to the beneficiaries. The total investment under the mission is Rs 7.52 lakh crore with central assistance of Rs 1.85 lakh crore. So far central assistance of Rs 1.14 lakh crore has been released. Along with this, the Secretary, Housing and Urban Affairs also directed the States and Union Territories to expedite the construction of houses.

How to apply for Pradhan Mantri Awas Yojana

Application for Pradhan Mantri Awas Yojana can be done both online and offline. Any person can apply online by visiting the official website of Pradhan Mantri Awas Yojana. He/she must have a valid Aadhar card to apply. Also, any person can apply through offline mode by filling the form available from Common Service Center (CSC). Apart from this, the government has prepared a mobile based housing app, through which applications can also be made. On this app, beneficiaries can load photos and documents of house construction and also get information about the installments they will get.

 Advt. No. 2A/2021-22
 Advt. No. 3A/2021-22

(2) PwBD candidates may belong to any category (i.e. General/SC/ST/OBC/EWSs). Reservation for PwBD is horizontal and within the overall vacancies for the posts subject to the posts having been identified suitable for such disabilities.

(3) PwBD candidates should possess a latest disability certificate issued by a Competent Authority as prescribed vide The Rights of Persons with Disabilities Act, 2016 (RPWD Act, 2016). Such certificate shall be subject to verification/re-verification, as may be decided by the Board/Competent Authority.

(4) Backlog vacancies reserved for PwBD would be filled by a person with benchmark disability in the respective category. If no suitable person from that category is available such backlog vacancies would be filled up by interchange among other eligible PwBD candidates subject to the posts having been identified suitable for such disabilities as stated at Note II above.

(5) **Use of Scribe & Compensatory time:** At the time of online/written examination, only those PwBD candidates (who have disability of 40% or more) who have physical limitation in typing/writing, including that of speed would be allowed the facility to use the service of a scribe. In all such cases where a scribe is used, the following rules will apply:

- The candidate will have to arrange his/her own scribe/writer at his/her own cost.
- Both the candidate as well as the scribe will have to give a suitable undertaking, in the prescribed format with passport size photograph of the scribe at the time of examination.
- PwBD candidates who have physical limitation to type/write including that of speed shall be allowed compensatory time of 20 minutes per hour of the examination whether availing the facility of scribe or not.

D. Any candidate who is using scribe should ensure that he/she is eligible to use scribe in the examination as per the above guidelines. Violation of the above guidelines or suppression of material facts shall entail the cancellation of candidature of PwBD candidate, in addition to any other action that the Bank may deem fit against the candidate and the Scribe. The candidate can be removed from service without notice, if he/she has already joined the Bank.

E. During the exam, at any stage, if it is found that scribe is independently answering the questions, the exam session will be terminated, and candidate's candidature will be cancelled. The candidature of such candidates using the services of a scribe will also be cancelled if it is reported after the examination by the test administrator personnel that the scribe independently answered the questions.

(6) Detailed instructions for PwBD candidates regarding availing services of scribe and allotment of extra/compensatory time will be made available on the Bank's website (www.rbi.org.in) at the time of uploading of Admission Letters for examinations.

Note (III)- Candidates seeking reservation/relaxation benefits available for SC/ST/OBC/PwBD/EWSs/Ex-servicemen must ensure that they are entitled to such reservation/relaxation as per eligibility prescribed. They should also be in possession of all the requisite certificates in the prescribed format in support of their claim as stipulated for such benefits and these certificates should be dated earlier than the due date (closing date) of the application.

CAREER IN THE REAL ESTATE INDUSTRY

behalf of a licensed real estate broker. They can also act as intermediaries in price negotiations between buyers and sellers. For many, there are no fixed working hours, nor a fixed monthly income. They are paid a commission which is a percentage of the sales price of each transaction so the earning potential is unlimited.

ELIGIBILITY

While a qualification in this field is not essential, most real estate companies and multi-national organizations prefer candidates who have done a course in real estate management. There is MBA, diploma, post graduate diploma and certificate courses offered in Real Estate Management.

The eligibility for an MBA in Real Estate Management is graduation. Other courses like diploma and certificate can be done after completing 10+2. Some of the courses are also offered in distance mode. A course in this field covers subject areas such as risk management, economics, real estate law, property valuation and analysis, property management and market research, Construction Economics, Infrastructure Finance, Development & Management, Real Estate Laws, Entrepreneurship in Real Estate Management, Real Estate Marketing.

SKILLS REQUIRED

One must be job-ready with a bunch of skills to succeed and grow in the hierarchy in the property industry. The primary set of skills that are

required in this field are the passion and drive to work with India's demanding property seekers rich. Aspiring real estate professionals should educate themselves to the maximum extent possible on all aspects of the property sector and the business world - and, further, not to rely on knowledge alone but to avail of expert mentoring before actually venturing into the field. Negotiation skills are absolutely mandatory to succeed in this field, and these are best picked up by observing seasoned veterans. He or she must also have a firm understanding of sound business ethics, and must believe in them.

To work on the technical side and then to get a job in the real estate and infrastructure industry, you may have to complete a degree in civil engineering or construction engineering from any engineering college across the country. Besides technical jobs,

you could be an MBA in sales and marketing or international relations or hold a degree in business communication to get started with a construction company.

Proficiency with skills like basic computation of construction input cost, a rough idea of appreciation, knowledge of regulations related to stamp duty, property tax and registration charges, and primary knowledge of specific building codes etc., come in handy for an aspiring real estate executive.

Useful Skills in This Career:

- Technical aspects of building and construction
- Latest news on market prices per square feet of home/land/plots in different areas
- Stocks and shares status of various companies
- Various marketing, selling, and pricing strategies to attract customers
- Large network of shareholders or buyers

In addition to the above-mentioned skills the overall wisdom regarding the work is required. The most successful agents never quit improving. Their passion for improvement is acute, and they're self-disciplined.

Being an active listener and an excellent communicator with an energetic attitude can help you build a promising career in the real estate industry. The Indian real estate market is now adapting to international best practices, and the future belongs to polished professionals.

JOB ROLES

The real estate industry is vast, the sector now offers one of the widest career choices one can think of. From investment banking and management to research, valuations, project management, quantity surveying, corporate real estate, facilities management, sales and marketing, the industry offers plenty of job roles.

The real estate industry can be divided into several different areas:

- Development
- Sales and marketing
- Brokerage
- Property management
- Lending
- Professional services (law, accounting, etc.)

The following are some of job roles available in the real estate sector:

Residential real estate broker- A broker dealing in residential properties may represent either the buyer or the seller.

Commercial real estate broker- Such a broker sells hotels, office space and similar commercial real estate properties. He/she may concentrate solely on retail office space, mall space, industrial space or hospitality space.

Real estate appraiser- Such people determine the fair market value of a home for sale. They assess the value of properties on behalf of an appraisal firm, a bank or even major private investors.

Property Manager - Such a person usually is part of a professional property management firm and looks after the investment of the property owners. He handles customers and manages lease and rent deals.

Facilities Manager - Facilities management as a concept has just begun emerging as the best possible route of maximize profitability and reduce overheads

in large real estate projects such as residential townships, office buildings and malls.

Real Estate investment consultant - Such a person has extensive inside knowledge of the real estate market and advises property investors on the best investment options. His main focus is to locate properties that will appreciate in value.

Project development experts - Such people are at the very nexus of the property market, and help create saleable properties. They advise developers on all aspects of the project, from the blueprint stage to final deployment.

Sales and Marketing- Sales and marketing firms work with developers to sell the buildings and units they create. These firms earn a commission for creating all marketing material and using their sales agents to sell the inventory of completed units. These firms typically focus on new units.

Professional Services- There are a variety of real estate professionals who work in the industry and help make it function. The most common examples (other than the ones listed above) are accountants, lawyers, interior designers, stagers, general contractors, construction workers, and tradespeople.

Here are the most common jobs roles in the industry:

- Analyst - Performing financial analysis and valuation of properties
- Appraiser - Valuing properties
- Agent - a sales agent or "realtor"
- Building Inspector - Someone who examines buildings and works with appraisers
- Commercial Broker - An agent who sells commercial properties
- Loan Underwriter - A person who analyses the creditworthiness of a borrower
- Mortgage Specialist / Underwriter - A person who approves mortgage applications
- Real Estate Attorney - A lawyer who specializes in real estate transactions

with multiple projects in pipeline, realty sector is an ideal launchpad for civil engineers. It's a challenging role as one is expected to design, develop, create and maintain construction projects at construction sites.

Realty space has become very competitive. Today, graphic designers, 3D animators combined with digital marketers give a competitive edge to companies over their competitors as they tap into various social media and online platforms to reach out to their potential customers. These are specialized roles and are highly sought after in the market today.

Today software professionals are in much demand as organizations are deploying the use of virtual and augmented reality for making the home buying experience more accessible and AI & machine learning to take home search to the next level. There are immense learning opportunities and there is no limit to the scope of growth if one wants to fast track one's career as a software professional.

SCOPE

Infrastructure and Real Estate is the right career for you if you have penchant and passion for making big money, inclination to 24/7 hard

KAVACH: Indian Railways' Armour

Two trains on the same track heading towards each other. From what one can see, a head-on collision is imminent. However, both the locomotives are seen halting when they are nearly 400 metres apart, thus avoiding the mishap.

This feat was recently performed by the Indian Railways when an extensive trial of 'Kavach' was conducted. Union Minister for Railways, Sh. Ashwini Vaishnaw was onboard the locomotive that moved from Gullaguda towards Chitgidda (in Secunderabad Division of South Central Railway). Chairman and CEO of the Railway Board, Sh. V K Tripathi was onboard the locomotive that moved from Chitgidda towards Gallaguda. During the trial, a head-on-collision situation was created. Kavach initiated the automatic braking system and halted the locomotives 380 metres apart.

The focus of the Indian Railways is to increase capacity utilization of existing assets including rolling stock, track infrastructure, traction power and signalling and telecommuni-cations. By running more high-speed trains on the

Train Collision Avoidance System (TCAS)

Indian industry and trials facilitated by South Central Railway. The aim is to achieve the corporate objective of safety in train operations across Indian Railways. It is a state-of-the-art electronic system of Safety Integrity Level (SIL)-4 standards. SIL-4 certified technologies are those with the probability error of 1 in 10,000 years.

ATP is a type of train protection system which continually checks that the speed of a train is compatible with the permitted speed allowed by signalling, including automatic stop at certain signal aspects. If it is not, ATP activates an emergency brake to stop the train.

In addition to preventing collision between two locomotives, Kavach, or the Train Collision Avoidance System (TCAS), is meant to provide protection by preventing trains against Signal Passing at Danger (SPAD), excessive speed, and collisions. It activates the train braking system automatically if the crew either fails to do so as per the speed restrictions, or is not in position to do so.

During the trial, crossing of the red signal was also tested. The locomotive, however, did not cross the red signal as Kavach necessitated the application of brakes automatically. The automatic whistle sound was loud and clear when the gate signal approached. The crew did not manually touch the sound and braking system during the trial.

The speed restriction of 30 Kmph was also tested when the locomotive was run on a loop line. Kavach automatically reduced the speed to 30 Kmph from 60 Kmph as the locomotive entered the loop line.

Kavach is one of the cheapest SIL-4 certified technologies. It opens avenues of export of this indigenous technology for Railways. The indigenously-developed system costs around Rs. 40-50 lakh for each kilometre, whereas European

models cost approximately Rs. 1.5-2 crore for each kilometre.

Features of Kavach

1. Prevention of Signal Passing at Danger (SPAD)

EN EXPLAINS

2. Continuous update of Movement Authority with a display of signal aspects in Driver Machine Interface (DMI)/Loco Pilot Operation Cum Indication Panel (LPOCIP)
3. Automatic Braking for Prevention of Over Speeding
4. Auto Whistling while approaching Level Crossing Gates
5. Prevention of collision between two locomotives equipped with functional KAVACH
6. SoS Messages during emergency situations
7. Centralised live monitoring of train movements through Network Monitor System.

The trackside sub-system of the TCAS consists of Radio-Frequency Identification (RFID) tags fitted on track in the station section and block section for giving Trackside information to the Loco TCAS unit installed in the locomotive. Portions of the track, including berthing tracks, point and block sections, are assigned unique IDs called Track Identification Number (TIN). TIN, along with RFID tags, are used to determine the direction of the train. The system also consists of a Stationary TCAS unit installed at the station with radio tower to communicate with locomotives in the station area. Stationary TCAS is interfaced with station interlocking to acquire real-time dynamic information related with signalling. Route information of all the signals monitored by a specific Stationary TCAS unit is configured on the basis of TCAS Control Table (excluding shunt signals and

overlaps). Stationary TCAS unit gets real-time information regarding locations, speed, etc. of various trains in its jurisdiction through Ultra High Frequency (UHF) radio communication.

The advanced accident prevention measures, under which trains will be in constant communication with the protection systems through UHF/LTE communication, will be implemented over Indian Railways in a phased manner.

Kavach Deployment Strategy

96% of railway traffic is carried on Indian Railway High-Density Network and Highly Used Network routes. To transport this traffic safely, Kavach works are being taken up in a focused manner as per the following priority set by the Railway Board:

First Priority: High-Density Routes and on New Delhi-Mumbai and New Delhi-Howrah sections for 160 Kmph with Automatic Block Signaling and Centralized Traffic Control. These sections have been given first priority since such sections have higher chances of human errors on part of drivers resulting in accidents as trains run closer to each other.

Second Priority: On the Highly Used Networks with Automatic Block Signaling and Centralized Traffic Control.

Third Priority: On other Passenger High-Density Routes with Automatic Block Signaling.

Fourth Priority: All other routes.

The Union Minister for Railways stated that the Kavach is a major step taken by Indian Railways in taking forward Hon'ble Prime Minister of India's initiative of Atmanirbhar Bharat. During the development phase, Kavach was implemented for a length of 264 kilometres covering 25 stations across Wadi-Vikarabad-Sanath Nagar and Vikarabad-Bidar sections over South Central Railway. Later, the system was further extended by additional 936 kilometres, taking the cumulative deployment of Kavach to 1,200 kilometres. As a part of Atmanirbhar Bharat, 2,000 km of the network will be brought under Kavach for safety and capacity augmentation in 2022-23. The system will be further extended to an additional 4,000 to 5,000 Kms from next financial year. Around 34,000 Kms of network will be brought under Kavach. Indian Railways is planning to implement the Kavach protection system over its entire network at the earliest.

existing infrastructure, passengers and freight carrying capacity as well as revenue and profitability can be increased. In order to ensure safety over high speed and high-density rail networks of Indian Railways, it was felt that automatic prevention systems should be adopted. Indian Railways took up indigenous development of such technology to prevent dangerous train collisions caused due to human errors or limitations and equipment failures by providing an additional layer of enhanced safety in the operations.

What is Kavach?

'Kavach', which literally means 'armour', is an indigenously developed Automatic Train Protection (ATP) system by Research Design and Standards Organisation (RDSO) in collaboration with

property management firms and real estate brokers. Owners of residential homes, apartments, office buildings, or retail or industrial properties as well as home owner associations hire a property or real estate manager for the day-to-day management of their real estate investments.

Question: The woman/ women in your lives who have inspired you and their contributions which are worth emulating.

Hardil Noor Singh

Delhi

It is said, behind every successful man there is a woman. Our country has been blessed with great mothers and sisters in personal lives and also as warriors, bravehearts, and women with professional excellence like Rani Kamalapati, Rani Jhansi, Sarojini Naidu, Lata Didi. They have blessed our land with their great contribution.

The woman in my life is my mother. Apart from being my mother, she is a professor too at a prestigious University. She taught me patience, compassion and love for all. She inspired me in life to set a goal, work hard and strive for excellence till the goal is achieved. She is my friend, philosopher and guide.

I can proudly say whatever I am today is because of her; I excelled in engineering and even topped it

PM Narendra Modi addresses Officer Trainees of LBSNAA

Prime Minister Narendra Modi has said that the main objective of the nation is to modernize itself and to be self-reliant. He said that the eyes of the whole world are on us, in the circumstances created by COVID-19, a new world order is emerging and India has to develop itself at a faster pace.

Addressing virtually the Valedictory Function of 96th Common Foundation Course at Lal Bahadur Shastri National Academy of Administration (LBSNAA), on 17th March 2022, the Prime Minister asked the probationers to keep the goals of 21st century India in mind, the goal of building an AtmaNirbhar Bharat, and the goal of laying the foundation of a New Modern India. Addressing the gathering, Prime Minister said that this batch of Trainee Officers was special as it was beginning its work in the 75th year of the nation's independence, and they would be responsible for the development of the nation over the next 25 years. Addressing the officer trainees, he said that Sardar Patel's vision of service and duty is the most important part of training. He said if they work with principles of duty, they will not find any work burdensome.

SC Upholds Centre's Decision on OROP

The Supreme Court has upheld the Government's decision on One Rank-One Pension, OROP, for defence forces as it did not find any constitutional infirmity on the OROP principle and the notification of 7th November, 2015. A bench comprising Justices D.Y. Chandrachud, Surya Kant and Vikram Nath said, the policy decision of the Centre of OROP is not arbitrary and it is not for the court to go into the policy matters of the government.

While disposing off a plea on implementation of the One Rank-One Pension as recommended by the Bhagat Singh Koshyari Committee with an automatic annual revision, instead of the current policy of periodic review once in five years, the Apex Court directed that the pending re-fixation exercise of OROP, should be carried out from 1st July 2019, and arrears be paid to the pensioners in three months.

Bangladesh top in South Asia in terms of women on board of listed companies

Bangladesh tops the list in South Asia in terms of women on board of listed companies, says a study conducted by International Finance Corporation (IFC) and Dhaka Stock Exchange (DSE). According to the latest figures, there was an increase in the percentage of women who are independent directors on listed companies from five percent in 2020 to six percent, despite the impact of COVID-19, which has disproportionately affected women, said a press release issued by the IFC. A 2020 IFC-DSE study showed at the time around 18 percent of listed company board directors were women, which has remained the same.

World's Most Advanced Green Hydrogen Fuel Cell Electric Vehicle Launched in New Delhi

Road Transport Minister Nitin Gadkari launched the world's most advanced technology-developed Green Hydrogen Fuel Cell Electric Vehicle Toyota Mirai in New Delhi on 16th March. He said it is an important initiative in promoting clean energy and protecting the environment by reducing dependence on fossil fuels and thereby making India

'Energy Self-reliant' by 2047. Toyota Kirloskar Motor and International Center for Automotive Technology are conducting a Pilot Project to study and evaluate the world's most advanced Fuel Cell Electric Vehicle Toyota Mirai which runs on hydrogen, on Indian roads and climatic conditions. This is a first of its kind project in India which aims at creating a Green Hydrogen based ecosystem in the country by bringing awareness about the unique utility of Green Hydrogen and FCEV technology. Introduction and adoption of technology to tap into the Green hydrogen's potential will play a key role in securing a clean and affordable energy future for India.

Chennai to Host FIDE Chess Olympiad 2022

India has won the bid to host the FIDE Chess Olympiad 2022 in Chennai. It was originally scheduled to be held in Russia. But the FIDE recently announced that it pulled out from there following the Ukraine invasion. After the

announcement, Tamil Nadu government and the All India Chess Federation made a joint bid to host the prestigious tournament and won. A statement by the state government says, this is the first time India hosts the FIDE Chess Olympiad since its inception in 1927. In the event, Chennai will host about 2000 participants from all over the world. India, being the host nation, will get the opportunity to send in multiple teams, increasing the probability to have a podium finish. The tentative dates for the FIDE Chess Olympiad are fixed to be from 26th July 2022 to 8th August 2022.
